

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

# SCIENTIFIC BOOKS

## METEORITES

Their Structure, Composition and Terrestrial Relations.  
By Oliver Cummings Farrington, Ph.D., Curator of Geology,  
Field Museum of Natural History, Chicago.

This work gives a complete and accurate account of the present knowledge of Meteorites and embodies the results of the latest researches on the subject. "This volume will at once interest the intelligent amateur and be of value also to the trained specialist." American Journal of Science.

Pp. x+233; 65 illustrations. Price \$2. Postage extra, 2 lb. rate.  
For sale by COLONIAL PRESS, 1510 East 56th Street,  
Chicago, Illinois.

## A BRIEF ACCOUNT OF RADIO-ACTIVITY

By FRANCIS P. VENABLE, Ph.D., D.Sc., LL.D., Professor of  
Chemistry, University of North Carolina.

The object of this treatise is to give a simple account of the development of our knowledge of radio-activity and its bearing on chemical and physical science.

Pp. vi+52

D. C. HEATH & COMPANY  
Boston New York Chicago

## The Electron, its Isolation and Measurement and the Determination of Some of its Properties.

By BROTHER ANDREW MILLIKAN, Professor of Physics in  
the University of Chicago.

The purpose of this volume is to present the evidence for the atomic structure of electricity to describe the most significant properties of the electron, and their bearing on the structure of the atom and the nature of electromagnetic radiation.

The University of Chicago Press

## DESCRIPTIVE MINERALOGY

By WILLIAM SHIRLEY BAYLEY, Professor of Geology in  
the University of Illinois.

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy rather than a detailed knowledge of many minerals.

Pp. xvii+542; Illustrated, cloth, \$1.50.

D. Appleton & Company, New York

## DISCOVERY, OR THE SPIRIT OF SERVICE IN SCIENCE

By R. A. GREGORY

The main purposes of this book are to promote a more sympathetic attitude towards those who are engaged in the pursuit of scientific truth and to remove the wide-spread conception which prevails as to the meaning and influence of science.

Pp. viii+340

Macmillan and Co., Limited  
London

The Macmillan Company  
New York

## A HANDBOOK OF MEDICAL ENTOMOLOGY

By WM. A. RILEY, Ph.D., and O. A. JOHANNSEN, Ph.D.,  
Cornell University.

A new and up-to-date account of poisonous and parasitic insects and their allies, especially those that transmit and disseminate disease. Illustrated. Keys for identification, Cloth, 350 pages. Price \$2.20 postpaid.

Send for circular

The Comstock Publishing Company, Ithaca, New York

## CHARACTER AND TEMPERAMENT

### The Psychological Sources of Human Quality

By JOSEPH JASTROW, Professor of Psychology,  
University of Wisconsin.

(Conduct of Mind Series)

D. APPLETON & COMPANY. 1915

## ARBOREAL MAN

By F. WOOD JONES, M.B., D.Sc., Professor of Anatomy in the  
University of London.

An attempt to take stock of what is probable concerning the phylogenetic story of Man, in order to see if there is any stage in his evolution at which he or his remains might be labeled as human.

Pp. x+230. Price \$2.40 net

LONGMANS, GREEN AND CO. New York and London

## THE INFLUENCE OF MONARCHS

### Steps in a New Science of History

By FREDERICK ADAMS WOODS, Lecturer in Biology,  
Massachusetts Institute of Technology.

"The historiometry of Dr. Woods is in principle a legitimate extension and a logically legitimate refinement of the long since well-known disposition to explain human history in terms of 'historical tendencies' and of 'historical forces'."

—Dr. Josiah Royce in *Science*, April 17, 1914.

\$2.00

THE MACMILLAN CO., Publishers New York

## THE UNCAUSED BEING AND THE CRITERION OF TRUTH

By E. Z. DERR, M.D.

A profoundly philosophical work.—*San Francisco Argonaut*.

Of a highly philosophical character. The author reveals the weak points in Pantheism and Polytheism as these systems find expression in modern writings.—*Springfield Republican*. \$1.00 net.

Sherman, French & Company, Publishers  
Boston

## THE NATURE OF MATTER AND ELECTRICITY

### An Outline of Modern Views

By DANIEL F. COMSTOCK, S.B., Ph.D., Massachusetts Institute of Technology, and LEONARD T. TROLAND, S.B., A.M., Ph.D.

This book attempts to give in broad schematic form the conception of the structure of the material universe, which has developed in the minds of modern students of physical science.

Pp. xxii+194 and 32 illustrations. Price \$2.00

D. VAN NOSTRAND COMPANY, New York

## FOOD POISONING

By EDWIN O. JORDAN

Presenting the results of a thorough investigation of a question of special importance.

Seventh volume in the University of Chicago Science Series.

Complete list on request

viii+112 pages; \$1.00 net, postage extra

THE UNIVERSITY OF CHICAGO PRESS  
Chicago, Illinois

## TELEPHONE APPARATUS

### An Introduction to the Development and Theory

By GEORGE DEFREES SHEPARDSON, Sc.D., Professor of Electrical Engineering of the University of Minnesota.

This is the first extended treatise in any language devoted to the general principles underlying telephone apparatus.

Pp. xvii+337.

D. Appleton & Company, New York

Method of sizing the pipes for low pressure steam heating based upon the loss of pressure per lineal foot. Four large tables and a few small ones. 4½ x 6½; 47 pp.; \$2.00 postpaid.

Losses of pressure per lineal foot for different coefficients of friction. 1 table, 50 cents postpaid.

I. CHAIMOVITSCH, M.E., LL.B.

P. O. Box 298.

# SCHOOL AND SOCIETY

**A weekly journal covering the field of education in relation to the problems of American democracy**

**Edited by J. McKEEN CATTELL**

SATURDAY, SEPTEMBER 22, 1917

Rural Recreation: Louis W. Rapeer.  
Remarks on Certain Attacks that have been made upon the Teaching of Mathematics with Counter Criticisms: Harris Hancock.  
The Opportunity and Demand for University Extension: F. F. Nalder.  
Educational Events:  
Science and the Humanities; Courses in Physical Training in New York University; Registration in the New York City Schools.  
Educational Notes and News.  
Discussion and Correspondence:  
The Shame of being a Baby: Elsie Clews Parsons.  
Quotations:  
The Married Teacher in France.  
The Situation at Colorado College.  
Letter to Massachusetts Superintendents.  
Educational Research and Statistics:  
The Permanence of Interests and their Relation to Abilities: Irving King and Morris Adelstein.  
Societies and Meetings:  
The National Education Association.

SATURDAY, OCTOBER 6, 1917

The Educational Process: I. W. Howerth.  
The Social Function of Art: Ross L. Finney.  
The Educational Tradition in England.  
Educational Events:  
Secondary Education in England; Provision for Soldiers' Children; President Wilson on Problems of Community and National Life in the Schools; New Headquarters of the National Education Association.  
Educational Notes and News.  
Discussion and Correspondence:  
The National Association of Audubon Societies and its Facilities for the Benefit of Teachers: T. Gilbert Pearson.  
Educational Legislation in Texas: F. H.  
Quotations:  
The Carnegie Foundation's Insurance Plan.  
Books and Literature:  
Educational Journals.  
Educational Research and Statistics:  
An Experimental and Analytical Study of Woody's Arithmetic Scales: Walter S. Monroe.

SATURDAY, SEPTEMBER 29, 1917

Our Preparedness Program: Alexis F. Lange.  
The Educational Function of the Social Settlement in a Democracy; David Rosenstein.  
Educational Events:  
Finances of the New York City Schools; Courses on Social Welfare Work; The University of Texas.  
Educational Notes and News.  
Discussion and Correspondence:  
War Decalogue of Italian Teachers: G. A. Miller.  
Quotations:  
The English Schools and their Medical Service.  
Books and Literature:  
Educational Journals.  
General Resolutions of the Catholic Educational Association.  
Educational Research and Statistics:  
The School and Industry on the East Side: W. Randolph Burgess.  
Societies and Meetings:  
The National Education Association.

SATURDAY, OCTOBER 13, 1917

Academic Slavery: J. McKeen Cattell.  
The Municipal University: Carl Holliday.  
Educational Events:  
The Gary System in New York City; Student Registration at Harvard, Yale and Columbia; The Psychological Examination of Recruits; Public Libraries and Educational Journals; The Consolidation of "The School Journal" and "The Teachers Magazine" with "School and Society".  
Educational Notes and News.  
Discussion and Correspondence:  
Eugenics and College Education: Paul Popenoe.  
Quotations:  
Housecleaning at Columbia; A Shameful Episode.  
Books and Literature:  
Eastman on School Efficiency: Professor W. E. Chancellor.  
The University of Minnesota and Professor Schaper.  
Columbia University and Professor Cattell.  
Professor Beard's Letter of Resignation from Columbia University.  
Educational Research and Statistics:  
Causes of Elimination from the High Schools of South Dakota: A. O. Bowden.

## A Handbook of American Private Schools

The 2nd Edition revised and enlarged of the Handbook of the Best Private Schools.

Among the new features are a Complete List of Private Secondary Schools; new Educational Directories; a List of Secondary School Periodicals.

New Introductory Chapters, — Measuring Educational Results, the Year in Education; Review of Recent Educational Literature, etc., by Prof. Arthur O. Norton of Wellesley College, Prof. Clayton C. Kohl of New York University and others.

640 pages, round corners, crimson cloth, gold stamped, \$2.50

## A Handbook of New England

Descriptive of Town and Country along the Routes of Automobile Travel, with Introductory Chapters.

768 pages, round corners, crimson silk cloth, gold stamped, \$2.50

**PORTER E. SARGENT**

50 Congress St., Boston, Mass.

## Archives of Psychology

- No. 27. A Statistical Study of Eminent Women. Cora Sutton Castle. Pp. 90. 80 cents; cloth, \$1.05.
- No. 28. The Mental Capacity of the American Negro. Marion J. Mayo. Pp. 70. 60 cents; cloth, 85 cents.
- No. 29. Experimental Studies in Judgment. H. L. Hollingworth. Pp. 119. \$1.25; cloth, \$1.50.
- No. 30. The Psychological Researches of James McKeen Cattell; A Review by Some of his Pupils. Pp. 101. \$1.00; cloth, \$1.25.
- No. 31. Fatigue and Its Effect upon Control. Isaac Emory Ash. Pp. 61. 60 cents; cloth, 85 cents.
- No. 32. The Transfer Effects of Practice in Cancellation Tests. Melvin Albert Martin. Pp. 68. 60 cents; cloth 85 cents.
- No. 33. The Intellectual Status of Children Who are Public Charges. J. L. Stenquist, E. L. Thorndike and M. R. Trabue. Pp. 52. 50 cents; cloth, 75 cents.
- No. 34. The Relation of Quickness of Learning to Retentiveness. Darwin Oliver Lyon. Pp. 58. 50 cents; cloth, 75 cents.
- No. 35. The Overcoming of Distraction and Other Resistances. John J. B. Morgan. Pp. 78. 75 cents; cloth, \$1.

**A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE**

FRIDAY, OCTOBER 12, 1917

Radiation and Matter: Professor William Duane.  
The Relations of Magnetism to Molecular Structure: Professor A. P. Wills.

Enrollment in Science in the High Schools: Professor Elliot R. Downing.

Scientific Events:—  
Professor Robertson's Gift to the University of California;  
The Health of Munition Workers in England; Electrical Engineers as Lieutenants in the U. S. Naval Reserve; Psychological Examination of Recruits.

Scientific Notes and News.  
University and Educational News.

Discussion and Correspondence:—  
International Units and Symbols in Aerography: Professor Alexander McAdee. Symbols: Dr. Otto Klotz. Bacterial Leafspot of Tobacco: F. A. Wolf and A. C. Foster. Plant Diseases in Canada: Dr. H. T. Güssow. Common Plant Names: Margaret Armstrong. A Simple Explanation: Professor Cyril G. Hopkins.

Quotations:—  
Columbia University and Professor Cattell.

Scientific Books:—  
Findley's Chemistry in the Service of Man: Professor Jas. Lewis Howe. Ulugh Beg's Catalogue of Stars: Dr. Benjamin Boss.

Five Years of Starvation of Larvæ: Dr. J. E. Wodsealek.

Special Articles:—  
The Role of the Nucleus in Oxidation: Professor W. J. V. Osterhout.

Societies and Academies:—  
The American Mathematical Society: Professor F. N. Cole.

Annual Subscription \$5.00.

FRIDAY, OCTOBER 19, 1917

The Utilization of Patents for the Promotion of Research: Professor T. Brailsford Robertson.

Scientific Events:—  
Joseph Young Bergen; The American Association of Variable Star Observers; The Cornell Medical School; A School for Oral and Plastic Surgery; The Red Cross Medical Service.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence.

Isolation Cultures with Small Aquaria: Dr. Frederick H. Blodgett. Two Methods of Orientation of Small Objects in Paraffin; Jas. A. Nelson. The Aurora Borealis: Charles A. Mead.

Scientific Books:—

Jackson's Experimental Pharmacology: Dr. David I. Macht.

Aphis Immunity of Teosinte-corn Hybrids: Dr. W. B. Gernert.

Special Articles:—

The Tillerling of Wheat: A. E. Grantham. Transmitting the Fowl Nematode: James E. Ackert.

Single Numbers 15 cents.

# ***R-S The Original Mechanically Operated Side by Side Valve Motor***

Time and again, during the past nine years we have demonstrated that the R-S Motor with its integral cams and gears of specially treated Vanadium Steel, its large cooling flanges, its long stroke, its mechanically operated Valves is the most reliable, flexible, powerful and durable Motor that stands the test of time. It triumphs over the worst road conditions and survives the most gruelling tests, yet remains fresh and sweet through it all—never taxed to its utmost, but always with plenty of power on which to draw.

We are the originators of the Mechanically Operated Side by Side Valve Motor and therefore eight years in advance of all others. The R-S is not an experiment at the expense of the rider.

With such a motor to start with is there any wonder that the other features of the R-S are in keeping with the recognized superiority of the R-S Motors.

Write for catalogue and dealer's proposition.

## Optical Accuracy Assured

While simplicity, sturdy construction and moderate price are weighty factors in the selection of microscopes for class or laboratory use—of far more importance is the element of *optical exactness*. In the construction of all

## Bausch<sup>and</sup> Lomb Microscopes

optical exactness is as assured as our 60 years of optical experience can make it. And our unusual facilities for scientific research and experimentation are being constantly employed, not only to achieve this accuracy but to refine and perfect every part of every microscope we make.

Note, for instance, Model F2 here illustrated. Provided with lever fine adjustment with the slow movement required for higher powers. Particularly suited to laboratory or class room and built to "stand up" under inexperienced usage and strenuous practice. The base and arm are finished in our durable crystal black, entirely reagent-proof. The price is \$31.50. Other models range from \$18.00 up. Send for catalog or descriptive literature.
